

Assisted Living Operations Manager Serenity South Senior Living

Serenity South Senior Living is seeking an experienced Assisted Living Operations Manager to help support multiple assisted living communities in Southeast Alabama, with future expansion into the Columbus, Georgia market.

This role will assist with operational oversight, compliance support, staffing support, systems/process improvements, and overall operational consistency between communities. The position works closely with Executive Directors and ownership to help improve operations, support leadership teams, and maintain high standards of resident care.

Responsibilities Include:

- Operational oversight and support across multiple communities
- Compliance and survey readiness support
- Staffing and leadership support
- Process improvement and operational consistency
- Reporting, accountability, and performance tracking
- Regular travel between community locations based on operational needs

Qualifications:

- Experience in assisted living, healthcare operations, or multi-site management
- Strong leadership, communication, and organizational skills
- Knowledge of assisted living regulations and operational best practices preferred

This is a full-time position with a combination of remote and on-site responsibilities.
